CONGRESO ANCEI

EUROPEAN CONGRESS OF RESEARCH ETHICS COMMITTEES

EUREC-ANCEI joint Conference

MAY 17-19, 2017 BARCELONA, SPAIN

Aquí presentamos el programa de este congreso Europeo, en el que se van a tratar los problemas más acuciantes que afectan la investigación en seres humanos en el momento actual.

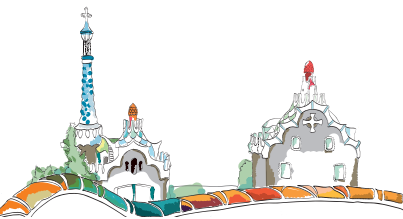

La influencia de la Declaración de Taipei, los primeros efectos de de la implementación en Europa del nuevo Reglamento UE 536/2014 sobre los ensayos clínicos, la Recomendación CM/Rec(2016)6 sobre la investigación con materiales biológicos de origen humano, además de:

- los resultados de proyectos europeos como IMAGEMEND y SATORI,
- la nueva regulación sobre los dispositivos médicos o sanitarios,
- comunicaciones libres,

asi como las aportaciones de la Comisión Europea sobre ética y las tecnologías de la información en Investigación Biomédica, hacen de este Congreso una ocasión inmejorable para actualizar los conocimientos sobre estos campos de vital importancia en el momento presente.

“Los idiomas del congreso serán el inglés y el español, aunque se recomienda, dado el carácter internacional del mismo, el uso del inglés. Habrá traducción simultánea inglés-español y español-inglés en todas las sesiones salvo en las asambleas de las sociedades. El servicio de traducción simultánea ha sido patrocinado por los Laboratorios Esteve”.

EUROPEAN CONGRESS OF RESEARCH ETHICS COMMITTEES

EUREC-ANCEI joint Conference

MAY 17-19, 2017 BARCELONA, SPAIN

We are pleased to introduce the program for this European Congress, which will be dealing with the most pressing problems in the panorama of research in human beings.

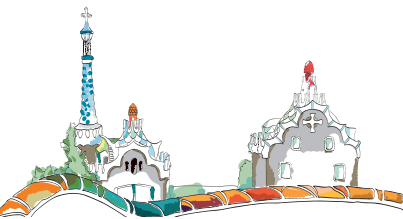

The influence of the Taipei Declaration, the earlier effects of the new European Regulation EU 536/2014 on clinical trials, the Recommendation CM/Rec(2016)6 on research with biological samples of human origin, in addition to:

- The results of European projects such as IMAGEMEND and SATORI,
- The new regulation concerning medical devices,
- Free communications,

The contributions of the European Commission with regards to ethics alongside the information technology in the realm of Biomedical Research add to making this Congress an unique opportunity to update knowledge in these areas, areas which are of paramount importance in the present climate.

***“There will be simultaneous translation service Spanish-English and English-Spanish along the sessions.
Sponsored by Laboratorios Esteve”***
